EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Bowen on January 18, 2007.

The application has been amended as follows:

IN THE CLAIMS:

Claim 1, line 10: "one groove portion" has been changed to --one annular groove portion--.

Claim 1, line 13: "to reduce a" has been changed to --to reduce an inner--.

The following is an examiner's statement of reasons for allowance: The prior art, taken as a whole, does not teach or render obvious the claimed combination comprising a sliding bearing comprising, "[A]t least one annular groove provided in the outer peripheral surface of said bearing body; and an elastic ring which is fitted in said groove in such a manner as to radially outwardly project partially from the outer peripheral surface of said bearing body and to reduce an inner diameter of said bearing body." Claim 25 is allowable for the same reason as it incorporates all of the limitations of allowable claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

Claim 1 is allowable. Claims 6, 14, 15, 17, 18, 22, 23, and 27, previously withdrawn from consideration as a result of a restriction requirement, include all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between species 1-5, as set forth in the Office action mailed on March 17, 2006, is hereby withdrawn** and claims 6, 14, 15, 17, 18, 22, 23, and 27 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01
